A Note About Data:
Your data is stored on your computer, inside of the browser. If you change computers, or change browsers, or if data is "cleaned" from your browser, your data will "disappear."

Back Up!

To protect against disappearing data, you can back up as follows:

Instructions

View Sent Data

Back Up Data

Restore Data

click

then

click

Back Up Data

Save the file in a safe, secure location. You may want to do this EVERY TIME you enter data!

Share:

Your backed up data can also be used to save typing if you share students with other staff. Choose "Load Student Data" from the Restore Data page to import student data.

Step 1:

Edit your settings.

Click to edit your settings

Students [Add New Student]

ID First name Last name Last initial Grade Active

Staff [Edit]

MUST SET URL BEFORE USE!

Edit to set Name and Position!

Agency Not Set

Monthly Data [Create Grouping] [Quick Grouping]

Click on Grouping name to view/edit members or create sessions

ID Name

Enter your name, and select your position.

In the email with the link to the database form, find the long link labeled **URL**.

paste **URL** from email

Select groupings on the right. (Optional)

[Create] [Cancel]

Students [Add New Student]

ID	First name	Last name	Last initial	Grade	Active
1	John	Smith	S	9	true
2	Mary	Jones	J	7	true

After creation, you can click to edit a student's info.

Step 3:

Create groupings (optional).

Monthly Data [Create Grouping] [Send Data]

Click on Grouping name to view/edit members or send data

Grouping Name
job search
tutoring

"Groupings" are an optional convenience for groups of students that often get the same data entered.

This is not necessarily for formal workshops or groups.

You can also create quick groupings of students with the same data by just choosing "Enter Data."

Choose a name for the grouping, then select students from your Students list and Create.

Monthly Data [Create Grouping] [Cancel]

Group name

Students Included Cancel

UNCHECK ABSENT STUDENTS!

(will not remove from group tutoring, only from this session)

x	First name	Last name	Grade
☑	John	Smith	9
☑	Mary	Jones	7

...or uncheck those who should not be included this time.

"Remember" boxes tell the form that this value should be used again the next time this form is accessed.

Use them to save clicks on form elements that you tend to fill out the same way every time.

Step 5:

Send your data.

Please remember to uncheck absent students!
Send Cancel

Double check that the correct students are selected on the left side and click Send.

SENDING DATA. DO NOT CLOSE WINDOW!

After clicking Send, watch for this banner. Sending data should take a few seconds and then the banner will disappear!

If banner remains, data is not lost.

Make sure you are connected to the internet and reload the page.

Data will be sent next time you connect.
